

PART II.—ON HELIOPORIDÆ AND THEIR ALLIES.

	PAGE
Introduction,	102
Methods employed,	103
Observations on <i>Heliopora cœrulea</i> in the living condition,	103
Structure of the corallum of <i>Heliopora cœrulea</i> ,	103
Mode of the growth of the corallum,	106
Mode of deposition of the hard tissue,	107
Blue coloration of the corallum,	109
Structure of the soft tissues of <i>Heliopora</i> ; ectoderm,	110
Endoderm; soft tissues of tubes and calices,	111
Canal systems,	112
Nematocysts,	113
Structure of the polyps,	113
Tentacles,	114
Stomach; mesenteries and muscles,	115
Generative organs,	116
Disposition of the dorsal and ventral aspects of the polyps,	117
Structure of a species of <i>Sarcophyton</i> ,	117
Terms employed—zooids,	118
autozooids,	118
siphonozooids,	119
sarcosome,	119
vascular system,	120
Disposition of the dorsal and ventral aspects of the zooids,	121
General remarks,	121
Affinities of <i>Heliopora</i> ,	121
Characters of the family HELIOPORIDÆ,	123
Tubular cœnenchym of <i>Heliopora</i> and its homologues,	123
Fossil allies of the HELIOPORIDÆ,	123
Alliance of <i>Syringopora</i> and <i>Tubipora</i> ,	124
On the septa of <i>Heliopora</i> ,	125
Zooids of <i>Sarcophyton</i> and Pennatulids compared,	125
Development of Alcyonarians and Zoantharians compared,	126
