

	LATIN SCIENTIFIC TERM.	ENGLISH TERM.	GERMAN TERM.
<i>su</i>	Sipho primarius (protosiphon).	Protosiphon.	Ursipho.
<i>sv</i>	Villi hepatici stomachi.	Hepatic villi.	Leber-Zotten.
<i>sw</i>	Plicæ internæ stomachi.	Stomach-folds.	Magen-Falten.
<i>sx</i>	Siphones sexuales.	Sexual polypites (Disconnectæ).	Geschlechts-Siphonen.
<i>sy</i>	Pylorus (sphincter stomachi).	Pylorus.	Magen-Pförtner.
<i>sz</i>	Sphincter basalis.	Basal sphincter.	Basal Sphincter.
<i>t</i>	<i>Tentacula (Filamenta).</i>	<i>Capturing filaments.</i>	<i>Fangfäden.</i>
<i>ta</i>	Ampulla terminalis tentilli.	Terminal vesicle of the tentillum.	Endblase des Tentills.
<i>tb</i>	Basis tentaculi.	Basal portion of the tentacle.	Basal-Stück des Tentakels.
<i>tc</i>	Cornua lateralia tentilli.	Lateral horns of the tentillum.	Seiten-Hörner des Tentills.
<i>td</i>	Tentaculum primarium.	Larval tentacle.	Larven-Tentakel.
<i>te</i>	Filum terminale tentaculi.	Terminal filament of the tentacle.	Endfaden des Tentakels.
<i>tf</i>	Filum terminale tentilli.	Terminal filament of the tentillum.	Endfaden des Tentills.
<i>tg</i>	Suspensorium (mesenterium).	Ventral band of the tentacle.	Tentakel-Leitband.
<i>th</i>	Involucrum (pallium cnidosacci).	Mantle of the sacculus.	Mantel des Nesselknopfs.
<i>ti</i>	Internodia tentaculi.	Internodes of the tentacle.	Tentakel-Segmente.
<i>tk</i>	Cnidotænia (cnidosaccus tentilli).	Sacculus (urticating band).	Nesselband des Tentills.
<i>tl</i>	Ligamenta elastica tentilli.	Angle-bands (of the cnidotænia).	Elastische Bänder des Nesselknopfs.
<i>tm</i>	Musculi tentaculi.	Muscles of the tentacle.	Tentakel-Muskeln.
<i>tn</i>	Nodi tentaculi.	Nodes of the tentacle.	Tentakel-Knoten.
<i>to</i>	Ampulla basalis (Physalidarum).	Basal sac of the tentacle.	Basal-Blase des Tentakels.
<i>tp</i>	Pedunculus tentilli.	Pedicle of the tentillum.	Tentillen-Stiel.
<i>tq</i>	Cnidosphæria terminalia (Disconectarum).	Terminal cnidospheres.	Endfaden-Nesselkugeln.
<i>tr</i>	Annuli tentaculi.	Rings of the tentacles.	Tentakel-Ringe.
<i>ts</i>	Tentilla (tentaculi rami laterales).	Lateral branches of the tentacle (Accessory tentacles).	Seitenfäden des Tentakels (Tentillen).
<i>tt</i>	Tentilli basis (insertio).	Insertional base of the tentillum.	Tentillen-Insertion.
<i>tu</i>	Insertio subumbralis tentaculi (Disconectarum).	Insertional-facettes of the tentacles.	Tentakel-Insertions Narben.
<i>tv</i>	Villi tentaculi exodermales.	Exodermal villi of the tentacle.	Exoderm-Zotten des Tentakels.
<i>tw</i>	Verrucæ tentaculi.	Exodermal tubercles.	Nesselwarzen des Tentakels.
<i>ty</i>	Ocelli involucri.	Ocellar spots of the sacculi.	Augenflecke der Nesselknöpfe.
<i>tz</i>	Calcar tentilli.	Spur of the tentillum.	Tentillen-Sporn.
<i>u</i>	<i>Umbrella.</i>	<i>Umbrella.</i>	<i>Schirm.</i>
<i>ua</i>	Apex umbrellæ.	Top of the umbrella.	Schirm-Scheitel.
<i>ub</i>	Basis umbrellæ.	Base of the umbrella.	Schirm-Grund.
<i>uc</i>	Centradenia (Disconectarum).	Central gland.	Central-Drüse (der Disconnecten).
<i>ud</i>	Facies dorsalis umbrellæ.	Dorsal face.	Rückenfläche des Schirms.
<i>ue</i>	Exumbrella.	Convexity of the umbrella.	Ober-Schirm.
<i>uf</i>	Velarium (Velellidarum).	Sail of the float of the Velellidæ.	Segel der Schwimmblase.
<i>ug</i>	Facies basalis umbrellæ.	Basal face of the umbrella.	Grundfläche.
<i>uh</i>	Hepar (Disconectarum).	Liver (of the centradenia).	Leber (der Central-Drüse).
<i>ui</i>	Infundibulum (hydræcium).	Funnel-cavity.	Stamm-Gehäuse.
<i>uk</i>	Valvula infundibuli.	Valve of the funnel.	Gehäus-Klappe.
